Motion Sensor | 360 Range | Volt Free | Plaster In | Pin Hole | Wall Mount | Front Plates

### **MOTION SENSOR 360 - VOLT FREE**

The Flagship of Faradite sensors is the Motion Sensor 360 Volt Free. It is a Dry Contact, 5-35V (12V - 24V - 35V) low profile, silent, discreet PIR (passive infrared) ceiling mounted motion sensor. Protruding only 0.14 inches from the ceiling its discreet look and miniature size does not detract from the décor and architecture of your home.

The sensor can be used to automate your lighting control for an energy efficient and comfortable smart home experience.

**MSRP Price \$180**

### **MOTION SENSOR 360 - PINHOLE - VOLT FREE**

The Faradite Motion Sensor 360 Pinhole - Volt Free sets a new frontier for sensor technology. This rear-mounted, ultra-discreet sensor allows custom installers to deliver precise motion-based automation from a visible front that is just under 0.6 inches in diameter. This sensor is available in both black and white color ways.

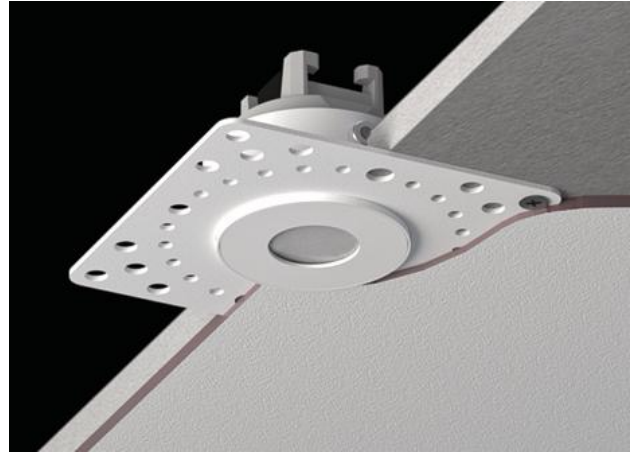

**MSRP Price: \$345.00**

### **MOTION SENSOR 360 - PLASTER IN - VOLT FREE**

The Motion Sensor 360 - Plaster In raises the bar for discreet automation. This plaster-in version of our widely popular Motion Sensor 360 PIR offers integrators a best-in-class solution for discreet automation.

**MSRP Price: \$281.00**

### **SENSOR WALL MOUNT ACCESSORY**

The Faradite Sensor Wall Mount Accessory is the perfect solution for wall mounting our motion sensors. It is most commonly paired with the Motion Sensor 360 IP67 Volt Free for installation in gardens and on porches. Strong, rugged and beautiful, it is the perfect compliment to any smart environment. The Sensor Wall Mount Accessory is available in both black and white color ways.

**MSRP Price: \$140.00**

### **TAP-5 Keypad - Frontplate**

A complete TAP-5 keypad is made up of a front plate and a coupler. If choosing the Volt Free coupler, there are a range of fly leads you can select to easily connect to a wide range of control systems.

**Priced when specified**
